Objective

BCA graduate pursuing MCA, passionate about software development, web technologies, and cybersecurity. Strong foundation in programming and system analysis, eager to apply skills in a dynamic environment and gain hands-on industry experience.

Key Skills

Python
Django Development
Data Analytics

Machine Learning
Web Development

Experience

While I may not have formal work experience, I have actively worked on various group projects that have helped me develop strong technical and problem-solving skills. My hands-on experience includes:

Volunteer Hiring System

A web-based platform that allows event companies to post opportunities and hire volunteers seamlessly.

Pro-Tube

A Social-media web app which is categorized by User Age

Course Management System

A platform designed to create, organize, and manage educational courses, assignments, and student progress efficiently.

Working on

Movie Recommendation System

A Movie Recommendation System that suggests personalized movie recommendations using machine learning algorithms like Collaborative Filtering and Content-Based Filtering. Built with Django (backend) and React.js (frontend), it allows users to rate movies, get tailored suggestions, and manage their watchlist.

Leadership

I don't have formal leadership experience in academics, but I served as the captain of the Gujarat University national softball team twice. This role enhanced my teamwork, decision-making, and leadership skills in a competitive environment.

Education

Bachelor Of Computer Application

C.U shah institute of computer application
Gujarat University
CGP - 8.05

Certification

By Udemy

-Complete Guide in HTML & CSS - Build Responsive Website
-Machine Learning Basics – Regression Analysis
- Python Bootcamp
